Join the Conversation

Working with a wide variety of demographics, cosmetologists have a rare insight into the needs of their most vulnerable clients. Indeed, as trusted confidantes, they have the opportunity to play a crucial role in enhancing the physical and mental well-being of their clients.

The CANB is partnering with the New Brunswick Department of Health in inviting you to a focus group meeting on **January 23, 2024**, at 6:30 pm to discuss your experience in working with seniors (age 65+) and other vulnerable groups. The GNB wants to understand it can best support CANB members address the needs of that demographic and want to gain insights into the observations and challenges encountered by beauty professionals when serving senior and vulnerable clients, both within the salon and in client homes.
